## CLASS DESCRIPTIONS

### Class Name

### Level

### Class Description

#### General Data Reporting

Introduction to Data Reporting

Beginner

This class provides a high-level view of reporting data to NCCI and available resources by data type. You will learn how to navigate through **ncci.com**, learn about NCCI's suite of data tools, data manuals, and services, and learn how to set up your email notifications for manual and website updates.

Cross-Data Linking  
and Comparisons

Intermediate

This class focuses on Cross-Data Linking and Comparison topics, including:

- The key linking fields for Policy Data and claim data
- How to consistently report key linking field values across data types
- How to monitor your linking results
- How to address linking issues
- How NCCI uses your linked data
- Data comparisons across and within data types

#### Unit Statistical Data Reporting

Introduction to Unit Reporting

Beginner

This session provides the key concepts of Unit Statistical Data reporting and how the validation process applies to the quality of your data.

You will learn about:

- Unit Statistical Data components and reporting requirements
- What unit validation is applied to your data
- How to address your post-submission validation edits
- The effects of data issues on data usage
- Resources available to you

Unit Data Collection Tool

Beginner

This hands-on session centers on how to utilize the **Unit Data Collection** tool, focusing on the receipt and review of Unit Statistical Data, and provides a high-level overview of how to monitor timely submissions via the **Unit Report Control** program.

## CLASS DESCRIPTIONS

Class Name	Level	Class Description
Financial Call Editing and Validation	Intermediate	This session covers an overview of NCCI's validation of Financial Call data edits and potential drivers. You will learn how to review, research, and respond when validating Financial Call data.
Data Manager Dashboard—Financial Calls and ADQIP	Intermediate	This session provides an overview of the <b>Aggregate Data Quality Incentive Program (ADQIP)</b> and its components, applicability, and assessments. It will cover how to view information related to <b>ADQIP</b> in the <b>Data Manager Dashboard</b> .
Financial Call Components: Advanced Topics	Advanced	This session delves into the critical components of Financial Call reporting. Participants will gain a comprehensive understanding of key topics such as premium, losses, claim counts, and expense reporting.
DSR Part 1: Reporting Rules	Advanced	This session examines reporting rules for deriving the Designated Statistical Reporting (DSR) Level Premium and covers associated topics, such as deviation history and other Financial Call premium types.
DSR Part 2: Average Deviation and Extending Exposures	Advanced	This session covers detailed instructions on the two methods—Average Deviation and Extending Exposures—for DSR reporting.
Financial Data Collection Reimagined: What's Ahead for 2027	Advanced	<p>Join us for an interactive preview of the new <b>Financial Data Collection (FDC)</b> tool—available for the 2027 reporting season.</p> <p>You'll learn how the tool helps make reporting your Financial Call data easier and more efficient. We'll walk through key features, demonstrate tasks, interact with the tool, and highlight enhancements designed to improve your workflow.</p>
Policy Data Reporting		
Introduction to Policy Data Reporting	Beginner	This session provides the fundamentals of reporting Policy Data and includes an overview of the <b>Policy and Proof of Coverage Reporting Guidebook</b> .
Policy Data Collection Tool	Beginner	This hands-on session takes an in-depth look at how to use the <b>Policy Data Collection</b> tool.

## CLASS DESCRIPTIONS

Class Name	Level	Class Description
Researching and Correcting Policy and POC Edits	Intermediate	This session provides guidance on addressing policy and POC edits. Topics covered include the impact of Policy Data on downstream processes, how the editing process is essential to maintaining the quality and availability of data, and using data reports to help you research and make appropriate corrections.
Data Manager Dashboard—Policy Data	Intermediate	This hands-on session provides an overview of the <b>Data Manager Dashboard</b> for Policy Data reporting. It covers how to navigate the tool and monitor: <ul style="list-style-type: none"><li>• Policy Data quality and timeliness</li><li>• Policy reporting results for the <b>Data Quality Incentive Program</b> and <b>Carrier Report Card</b></li></ul>
Effective Policy Reporting for POC	Advanced	This session provides an overview of NCCI's Proof of Coverage (POC) process. Topics include adding, changing, and ending coverage and correcting previously reported Policy Data. State-specific POC processing rules will also be covered.
Advanced Policy Reporting Topics	Advanced	This session provides insight into advanced Policy Data reporting topics including mid-term changes, extended-term policies, if-any coverage, deductible policy reporting, federal coverage, and Policy Data reports.
Indemnity Data Reporting		
Introduction to Indemnity Data Call	Beginner	This session covers the core concepts of the Indemnity Data Call and how to accurately report your data. Topics include: <ul style="list-style-type: none"><li>• Overview of Indemnity Data Call components and reporting requirements</li><li>• Usage of the <b>Indemnity Data Call Reporting Guidebook</b></li><li>• Demonstration of the <b>Indemnity Data Collection</b> tool and key features</li><li>• Additional resources and support available for reporting</li></ul>
Indemnity Data Call Reporting Practices & Indemnity Incentive Program	Intermediate	This session offers an in-depth look at advanced Indemnity Data Call reporting practices, including data mapping, file replacement and deletion, subrogation reporting, and the implementation of new data elements. This class will also explore the <b>Indemnity Incentive Program</b> , covering key components, eligibility criteria, assessments, and how to monitor performance using the <b>Indemnity Data Collection</b> tool.

## CLASS DESCRIPTIONS

### Class Name

### Level

### Class Description

Usages of the Indemnity Data Call and the Importance of Quality

Advanced

This session focuses on NCCI's validation of the Indemnity Data Call and the effects of data issues on data usage. It covers NCCI's approach to identifying data reporting outliers, carrier outreach, and expectations for corrective action.

### Medical Data Reporting

Introduction to Medical Data Call

Beginner

This session offers a comprehensive introduction to the Medical Data Call, focusing on essential concepts and practical guidance for accurate data reporting. Key topics include:

- Medical Data Call components and associated reporting requirements
- Usage of the **Medical Data Call Reporting Guidebook**
- Demonstration of the **Medical Data Collection** tool
- Additional resources

Medical Data Call Reporting Practices & Medical Incentive Program

Intermediate

This session focuses on the practices for common reporting issues and reasonable reporting validation of the Medical Data Call. It covers topics such as hospital inpatient reporting and Key Field Verification. This class also explores the **Medical Incentive Program**, including the program components and assessments, criteria, and how to monitor your reporting performance using the **Medical Data Collection** tool.

Usages of the Medical Data Call and the Importance of Quality

Advanced

This session focuses on NCCI's validation of the Medical Data Call and the effects of data issues on data usage. It covers NCCI's approach to identifying data reporting outliers, carrier outreach, and expectations for corrective action.
