

Data Now Program (DNP) Introduction to Medical Data Call

Key Takeaways

- Review the basic reporting rules and requirements for the Medical Data Call as outlined in the ***Medical Data Call Reporting Guidebook***
- Demonstrate the features and functionality of the ***Medical Data Collection (MDC)*** tool

Topics

- Overview
- General Rules
- Core Resources
- Editing and Validation
- Medical Data Call Structure
- Compliance

Medical Data Call Overview

Medical Data Call

Each medical service that occurs due to an employee's job-related injury.

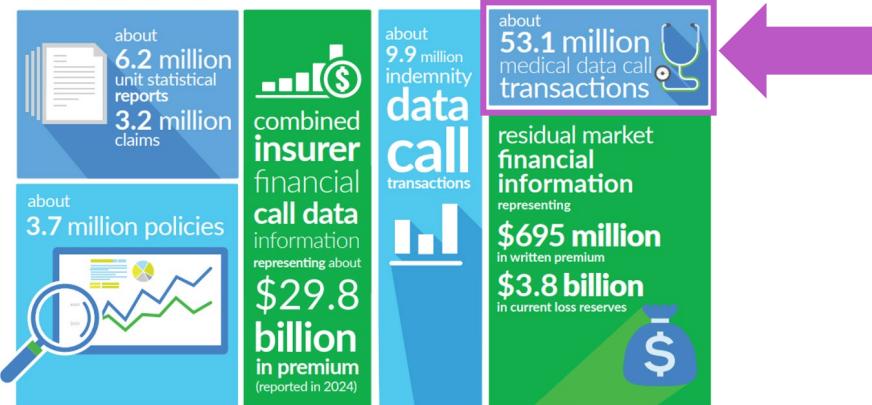

- Hospital Stay
- Office Visit
- Physical Therapy
- Prescription Drugs
- MRI
- X-ray

Data Now Program (DNP) Introduction to Medical Data Call

NCCI by the Numbers

LEAP Team

NCCI's Law Evaluation and Pricing (LEAP) Team reviews legislative proposals, rule changes, court decisions, and enacted laws.

Medical Data Call Uses

There are four main uses:

- Legislative Analysis
- Regulator Requests
- Research
- Informational Resources

Medical Data Call Core Resources

Core Resources—ncci.com

- *Medical Data Call Reporting Guidebook*
- *Electronic Transmission User's Guide*
- *Data Quality Guidebook*
- **MDC** tool
- *Medical Data Collection* Tool User's Guide

Data Now Program (DNP) Introduction to Medical Data Call

Medical Data Call Reporting Guidebook

The **Medical Data Call Reporting Guidebook** is your primary reference for the instructions needed to accurately complete your Medical Data Call reporting.

To access the guidebook, log in to **ncci.com** with your user ID and password.

1. From the main page of **ncci.com**, click on Access Data Reporting Resources or Data Reporting

The screenshot shows the ncci.com homepage with a navigation bar at the top. The 'Data Reporting' menu item is highlighted with a pink arrow. Below the menu, there is a banner for the 'Data Now Program' (January 27-29, 2026) with a 'REGISTER NOW' button. To the right of the banner are several access links: 'Access DTVI Mailbox', 'Access Policy Data Collection', 'Access Unit Data Collection', 'Access Data Manager Dashboard', 'Access Financial Data Collection' (which is highlighted with a pink arrow), and 'Access Circulars and Manuals'.

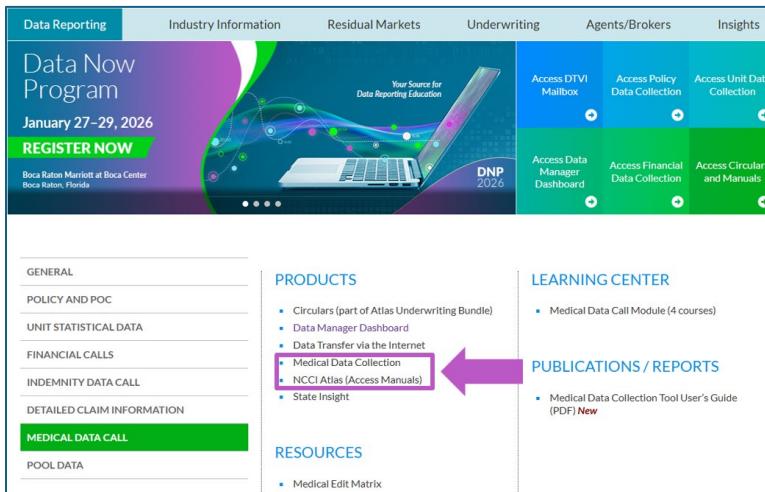

2. The Data Reporting page defaults to General, so select Medical Data Call

The screenshot shows the 'Data Reporting' page with a sidebar on the left containing links: GENERAL, POLICY AND POC, UNIT STATISTICAL DATA, FINANCIAL CALLS, INDEMNITY DATA CALL, DETAILED CLAIM INFORMATION, MEDICAL DATA CALL (which is highlighted with a green box), and POOL DATA. The main content area is divided into sections: PRODUCTS, LEARNING CENTER, and PUBLICATIONS / REPORTS. The 'GENERAL' section is currently selected.

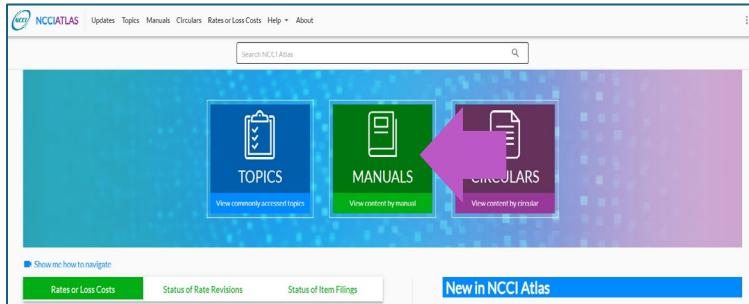

Data Now Program (DNP) Introduction to Medical Data Call

3. From the Medical Data Call section, under Products, select **NCCI Atlas** (Access Manuals) or **Medical Data Collection**

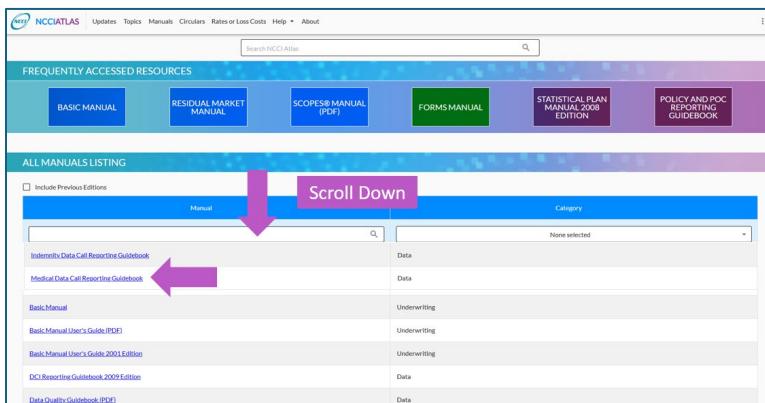

The screenshot shows the 'Data Now Program' section of the DNP website. On the left, there's a sidebar with categories like 'GENERAL', 'POLICY AND POC', 'UNIT STATISTICAL DATA', 'FINANCIAL CALLS', 'INDEMNITY DATA CALL', and 'DETAILED CLAIM INFORMATION'. The 'INDEMNITY DATA CALL' section is highlighted in green. On the right, there are several sections: 'PRODUCTS' (with 'Medical Data Collection' and 'NCCI Atlas (Access Manuals)' highlighted), 'LEARNING CENTER', 'PUBLICATIONS / REPORTS', and 'RESOURCES'. A purple arrow points to the 'Medical Data Collection' and 'NCCI Atlas (Access Manuals)' items in the 'PRODUCTS' section.

4. From **NCCI Atlas**, click the Manuals section

The screenshot shows the NCCI Atlas homepage. It features three main buttons: 'TOPICS', 'MANUALS' (which is highlighted in green), and 'CIRCULARS'. A purple arrow points to the 'MANUALS' button. The bottom of the page has buttons for 'Rates or Loss Costs', 'Status of Rate Revisions', and 'Status of Item Filings', along with a 'New in NCCI Atlas' section.

5. From the Manual column (left side), scroll down to **Medical Data Call Reporting Guidebook** and click on the title

The screenshot shows the 'ALL MANUALS LISTING' page on the NCCI Atlas website. It displays a table of manuals with columns for 'Manual', 'Category', and 'None selected'. A purple arrow points to the 'Medical Data Call Reporting Guidebook' title in the 'Manual' column. The page also includes a 'FREQUENTLY ACCESSSED RESOURCES' section with links to various manuals like 'BASIC MANUAL', 'RESIDUAL MARKET MANUAL', etc.

6. Click on the triangle to expand the list and select the **Medical Data Call Reporting Guidebook**

Medical Data Call General Rules

Medical Transactions

- Report all medical transactions associated with workers compensation claims in any Medical Data Call state
- The jurisdiction state is the state under whose Workers Compensation (WC) Act the claimant's benefits are being paid

States

Jurisdiction State—Examples

Review the jurisdiction state for each example.

Data Now Program (DNP) Introduction to Medical Data Call

Exposure State Is ...	Accident Occurs in ...	Benefits Paid Under the WC Act in ...	Jurisdiction State Is ...
FL	NM	NM	NM
TX	NM	TX	TX
GA	FL	FL	FL

Participation

All Companies Aligned Within Affiliate Group

All NCCI Collection States

! When identified as a participant, NCCI will send notification of reporting obligation.

Reporting Responsibility

Participants in the Medical Data Call have the flexibility of meeting reporting requirements:

- Submit directly to NCCI
- Authorize a third-party vendor to submit on their behalf
- A combination of both

 Quality, timeliness, and completeness of the Medical data is the responsibility of the carrier.

Reporting Frequency

All medical transactions that occur on a date within a specific quarter must be reported by the end of the following quarter.

Transaction Quarter	Due Date
Quarter 1	June 30
Quarter 2	September 30
Quarter 3	December 31
Quarter 4	March 31

Reporting Frequency Options

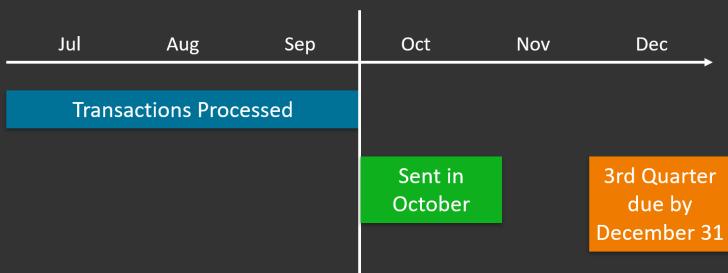

There is an option to report quarterly or monthly.

Data Now Program (DNP) Introduction to Medical Data Call

Quarterly

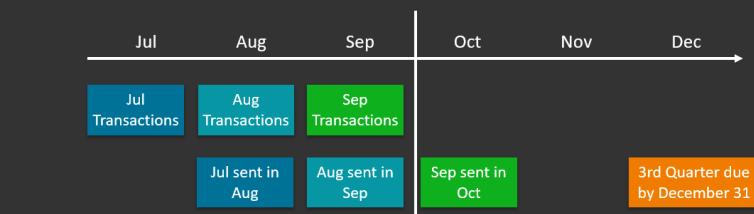

One submission due by the end of the following quarter

Third-quarter quarterly data can be sent as early as October.

Monthly

Three submissions due by the end of the following quarter

- Partial quarter's data submitted in three separate monthly submissions
- Can begin submitting third-quarter data as early as August 1

Due Date Examples

Review the examples:

Transaction Date	Include in Quarter ...	Due Date
3/15/2025	Quarter 1	6/30/2025
6/30/2025	Quarter 2	9/30/2025
8/01/2025	Quarter 3	12/31/2025
12/31/2025	Quarter 4	3/31/2026

Report all transactions based on the **Transaction Date**.

Data Now Program (DNP) Introduction to Medical Data Call

Medical Data Call Structure

Medical Data Call Elements

Key Fields:

Carrier Code, Policy Number Identifier, Policy Effective Date, Claim Number Identifier, Bill Identification Number, and Line Identification Number

Bill Header Data Elements:

Carrier Code, Policy Number Identifier, Policy Effective Date, Claim Number Identifier, Jurisdiction State Code, Claimant Gender Code, Birth Year, Accident Date, Bill Identification Number, Service From Date, Service to Date, Provider Taxonomy Code, Provider Identification Number, Provider Postal (ZIP) Code, Provider Postal (ZIP+4) Code, Network Service Code, and Place of Service Code

Bill Detail Data Elements:

Transaction Code, Transaction Date, Line Identification Number, Service Date, Paid Procedure Code, Paid Procedure Code Modifier(s), Amount Charged by Provider, Paid Amount, Primary ICD Diagnostic Code, Secondary ICD Diagnostic Code, Quantity/Number of Units per Procedure Code, and Secondary Procedure Code

Data Elements

- Carrier Group assigns:
 - Carrier Code
 - Policy Number Identifier
 - Policy Effective Date
 - Claim Number Identifier

Carrier Group	Medical Data Call	Vendor
Carrier Code	Carrier Code	
Policy Number Identifier	Policy Number Identifier	
Policy Effective Date	Policy Effective Date	
Claim Number Identifier	Claim Number Identifier	Claim Number Identifier
	Bill Identifier Number	Bill Identifier Number
	Line Identifier Number	Line Identifier Number
	Service Provider Information	Service Provider Information
	Procedure Information	Procedure Information

- Vendor receives the Claim Number Identifier from the carrier and assigns:
 - Bill Identifier Number
 - Line Identifier Number
- Vendor provides:
 - Service Provider Information (e.g., Taxonomy, Provider Identifier, Network Service Code)
 - Procedure Information

The Claim Number Identifier reported must match the Claim Number Identifier reported on the Unit Statistical Data.

Data Now Program (DNP) Introduction to Medical Data Call

Record Layouts

For NCCI to process data submissions, data providers are required to comply with specific requirements for:

- Record Layouts
- Data Elements
- Link Data

Medical Data Call Record Layout						
Field No.	Field Title/Description	Class	Position	Bytes	Header/Detail	Source
1	Carrier Code ^[1]	N	1-5	5	H	Payer
2	Policy Number Identifier ^[1]	AN	6-23	18	H	CMS 11
3	Policy Effective Date ^[1]	N	24-31	8	H	

Information included in layout:

- For Field No., there are 29 data elements.
- Field Title/Description provides the name of the data element.
- Class identifies (N) numeric, (AN) alphanumeric, or (A) alpha.
- Position number identifies the location within the 350-byte record.
- Bytes indicates the size of the data element.
- Header/Detail identifies if the data element is part of header information or detailed information.
- Source indicates the element can be found on standardized forms such as CMS or UB bill or from the payer. When data is not on a form, it is provided by the entity that pays the bill.

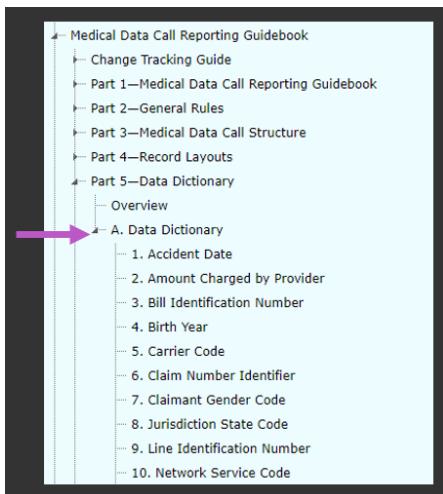

Data Now Program (DNP)

Introduction to Medical Data Call

Data Dictionary

The Data Dictionary section of the **Medical Data Call Reporting Guidebook** (Part 5) is provided in alphabetical order.

14. Place of Service Code			
Field(s):	27		
Position(s):	282-289		
Class:	Alphanumeric (AN)—Field contains alphabetic and numeric characters		
Bytes:	8		
Format:	A/N 8, this field must be left justified and blank-filled to right of the last number or character when the Place of Service Code is less than 8 bytes. Include leading zeros when part of the code. If converting codes from a system that does not store leading zeros, ensure that the leading zero(s) is inserted correctly. For example, if the system stores 9 for a code that is listed as 09 on the code list, insert a zero to the left of the 9 when reporting to NCCI.		

Definition: A code that indicates where the medical service was performed.

Reporting Requirement: Report the Place of Service Code from the Place of Service list, that indicates where the medical service was performed. Do not report Place of Service Code 99 (Other Place of Service) when the place of service is unavailable. Instead, leave this field blank.

For facility and hospital services, the Place of Service Crosswalk was developed to provide a mapping of the Type of Bill code to the Place of Service code. Online readers can click to view/print details: Place of Service Crosswalk (PDF).

Place of Service ¹			
Code	Description	Code	Description
01	Pharmacy	33	Custodial Care Facility
02	Telehealth Provided Other Than in Patient's Home	34	Hospice
03	School	35-40	Unassigned—Not Valid for NCCI
04	Homeless Shelter	41	Ambulance—Land
05	Indian Health Service—Free-Standing Facility	42	Ambulance—Air or Water

Each data element provides:

- Data Element Name
- Field number from record layout
- Position numbers identifying the location of the element within the 350-byte record
- Class identifies (N) numeric, (AN) alphanumeric, or (A) alpha
- Bytes indicates the size of the data element
- Format provides the class and length of the element along with any additional formatting instructions
- Definition provides the industry standard meaning
- Reporting Requirement provides any special instructions for reporting the data

For the Place of Service Code example, the code values provided are 2 bytes in a field that is 8 bytes. NCCI purposely padded the record layout to allow for future expansion. Source: Centers for Medicare & Medicaid Services (CMS) (www.cms.hhs.gov). The codes listed are valid as of the guidebook issue date. New codes approved by CMS are valid.

Place of Service Crosswalk

NCCI's guidebook will provide additional external references when available. For the Service Code example, the Place of Service Crosswalk for facility and hospital services is provided as a link within the Reporting Requirement.

Data Now Program (DNP) Introduction to Medical Data Call

This was developed to provide a mapping of the Type of Bill code on medical billing form CMS-1450 (UB-04). This is intended for reporting facility and hospital services because the form does not contain Place of Service code information.

Place of Service Crosswalk				
Type of Bill	Type of Bill Position 1 (Type of Facility)	Type of Bill Position 2 (Bill Classification)	Place of Service Code ⁽¹⁾	Place of Service Description
11X	Hospital	Inpatient	21	Inpatient Hospital
12X	Hospital	Inpatient	21	Inpatient Hospital
13X	Hospital	Outpatient	22/19 ⁽²⁾	On-Campus/Off-Campus Outpatient Hospital
14X	Hospital	Other	22/19 ⁽²⁾	On-Campus/Off-Campus Outpatient Hospital
18X	Hospital	Swing Bed	21	Inpatient Hospital
21X	Skilled Nursing	Inpatient	31	Skilled Nursing Facility
22X	Skilled Nursing	Inpatient	31	Skilled Nursing Facility
23X	Skilled Nursing	Outpatient	32	Nursing Facility
28X	Skilled Nursing	Swing Bed	32	Nursing Facility
32X	Home Health	Inpatient	12	Home
33X	Home Health	Outpatient	12	Home
34X	Home Health	Other	12	Home

Provider Identification Number

This number uniquely identifies the medical service provider that performed the service. When reporting, the **National Provider Identification (NPI) Number** is required.

0510-02	Provider Identification Number	PROVIDER IDENTIFICATION NUMBER IS NOT VALID PER TABLE.	01, 03	Field	Quality Tracking	Count Occurrences	06/18/2024—Added new edit that checks that the reported value for Provider Identification Number exists in table.
---------	--------------------------------	--	--------	-------	------------------	-------------------	---

Note: NCCI checks that the NPI Number is reported and is valid. This element is now included in the **Medical Incentive Program (MIP)**. Refer to MED-2024-01 and DQ-2025-01.

Provider Postal (ZIP+4) Code

MED-2024-01 and DQ-2025-01 announced that the implementation of the 9-digit ZIP+4 code is required and included in the **MIP**.

Record Layout—Transaction Code

5	Transaction Code	N	44-45	2	D	Payer
---	------------------	---	-------	---	---	-------

There are three different Transactions that can be submitted at the bill line detail level.

Medical Data Call Transactions

01 Original	Original <ul style="list-style-type: none">The first reporting of a medical transactionOnly one may be submitted for a medical transaction
02 Cancellation	Cancellation <ul style="list-style-type: none">Used to delete or cancel record(s)Apply to prior record(s) or record(s) in same submission
03 Replacement	Replacement <ul style="list-style-type: none">Used to revise non-key field valuesApply to prior record(s) or record(s) in same submission

Data Now Program (DNP) Introduction to Medical Data Call

Cancellation Record

Transaction 02	Use	Cancels records on NCCI's database
⚠ It is not necessary to provide any other data elements.	Include	Record MUST include all key fields from prior transaction
	Include	Deletes a prior record or multiple recordings using key fields

Different Uses of the Cancellation Transaction

- Delete an Original (01) or Replacement (03) Transaction

Record	Carrier Code	Policy Number ID	Policy Effective Date	Claim Number ID	Trans Code	Trans Date	Bill ID Number	Line ID Number	Service Date	Amount Charged by Provider
A	99990	ABC123	20240101	0006	01	20241010	1001	1	20240903	00000010000
B	99990	ABC123	20240101	0006	02	20241010	1001	1	20240903	00000010000

- Used Instead of a Replacement (03) Transaction

Record	Carrier Code	Claim Number ID	Trans Code	Trans Date	Bill ID Number	Line ID Number	Service Date	Amount Charged by Provider	Paid Amount	Provider Postal (ZIP+4) Code
A	99990	A10000	01	20241210	1001	1	20241203	00000010000	00000010000	334870000
B	99990	A10000	02	20241217	1001	1	20241203	00000010000	00000010000	334870000
C	99990	A10000	01	20241217	1001	1	20241203	00000010000	00000010000	334670000

- Update to Key Fields

Scenario	Carrier Code	Claim Number ID	Trans Code	Trans Date	Bill ID Number	Line ID Number	Service Date	Amount Charged by Provider	Paid Amount	Quantity/# of Units
A	99990	1000	01	20241210	1001	1	20241203	00000010000	00000010000	0000001
B	99990	1000	02	20241217	1001	1	20241203	00000010000	00000010000	0000001
C	99990	1	01	20241217	1002	1	20241203	00000010000	00000010000	0000001

Replacement Record

Transaction 03	Use	Correcting a data entry issue
⚠ Changes via a replacement record can only be made to non-key fields.	Include	Replaces a prior record or multiple records using Transaction Code 03
	Include	Replacement record MUST include all data elements
	Include	Replacements must report all values cumulatively

Data Now Program (DNP) Introduction to Medical Data Call

Replacement Record Examples

- The data provider reported the incorrect Jurisdiction State Code on all Federal Transactions

Record	Carrier Code	Policy Number ID	Policy Effective Date	Claim Number ID	Trans Code	Trans Date	Bill ID Number	Line ID Number	Service Date	Jurisdiction State Code
A	99990	ABC123	20240101	0006	01	20241010	1001	1	20240903	10
B	99990	ABC123	20240101	0006	03	20241012	1001	1	20240903	09

- The data provider needs to report an additional reimbursement on a previously reported transaction

Scenario	Carrier Code	Claim Number ID	Trans Code	Trans Date	Bill ID Number	Line ID Number	Service Date	Amount Charged by Provider	Paid Amount	Quality/# of Units
A	99990	1000	01	20241210	1001	1	20241203	00000010000	00000009000	0000001
B	99990	1000	03	20241217	1001	1	20241203	00000010000	00000010000	0000001

Medical Data Call Transaction Date

The Transaction Date is the **date** the medical transaction was **originally processed, updated, and paid** by the administering entity's system.

If Transaction Code Is ...	Then Report ...
01—Original	The date the information was originally processed by the administering entity
02—Cancellation	The date the cancellation was performed in the system of the administering entity
03—Replacement	The date that the information was changed or corrected in the system of the administering entity

Medical Data Call Transaction Date

- The date the medical transaction was **originally processed, updated, and paid** by the administering entity's system

Medical Service on	1/15/2024
Bill Processed and Paid on	1/21/2024
Data Provider Reports Transaction 01 on	4/1/2024
Transaction Date Should Be?	1/21/2024

- The date the medical transaction was **cancelled, changed, or updated** by the administering entity's system
- MUST be **after** the Transaction Date of record being cancelled or replaced

Data Now Program (DNP) Introduction to Medical Data Call

If Transaction Code Is ...	Then Report ...
02—Cancellation	The date the cancellation was performed in the system of the administering entity
03—Replacement	The date that the information was changed or corrected in the system of the administering entity

Key Fields

Key fields within the Medical Data Call:

- Carrier Code
- Policy Number Identifier
- Policy Effective Date
- Claim Number Identifier

Within the Medical Data Call, there are two additional key fields that are checked across transactions on the Bill Line records to link the claim records together:

- Bill ID Number
- Line ID Number

The Bill ID Number reported on any subsequent transaction must match the key fields reported in the original transaction or the record will reject.

Edit Number	Data Field	Edit Message	Transaction Code	Review rejected records and resubmit them with correct key fields.
0519-02	Transaction Code	Cancellation record does not match a previously reported record.	02	
0519-04	Transaction Code	Replacement record does not match a previously reported record.	03	

Importance of Claim Key Fields

Carrier Code, Policy Number, Policy Effective Date, and Claim Number identify all the transactions that identify a unique claim. NCCI uses these four fields to create a Claim ID. The Claim ID holds all payments and services together for the life of a particular claim.

Data Now Program (DNP) Introduction to Medical Data Call

Medical Data Claims

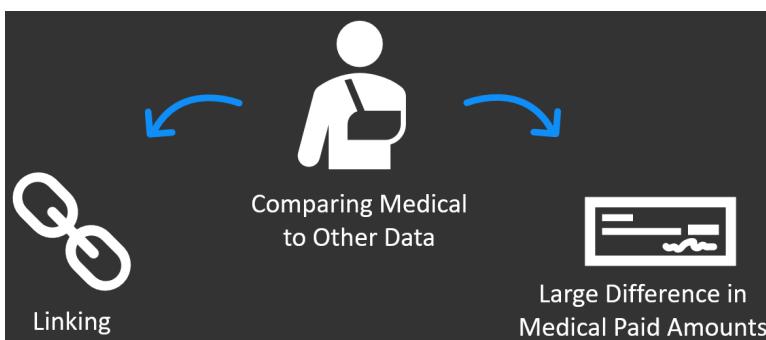

Regardless of who reports the date, the four key fields must be consistently reported.

Medical Data Provider 1		Medical Data Provider 3	
Claim ID: 123		Claim ID: 124	
Carrier Code:	99990	Carrier Code:	99990
Policy Number:	ABC123	Policy Number:	ABC123
Policy Eff Date:	20240101	Policy Eff Date:	20240110
Claim Number:	WC111	Claim Number:	WC111

Inconsistency in reporting key fields leads to the creation of new Claim IDs.

Consistency With Other Reporting

Consistency is “KEY” when reporting multi-data types.

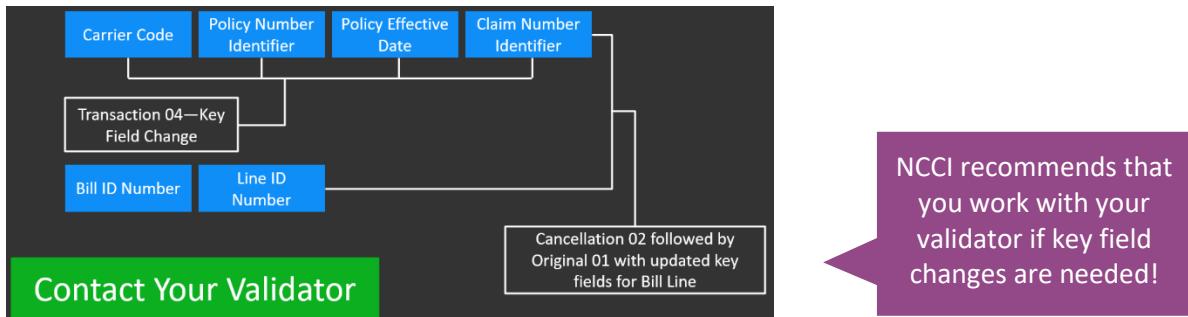

Consistently reporting linking data values across all data types enables NCCI to use these data elements for the same policy and associated claims.

Consistent Reporting of Multi-Data Type Fields						
Data Element	Data Type					
	Policy Data	Unit Statistical Data	Financial Calls#1B, #1C, #31, #33	Medical Data Call	Indemnity Data Call	Pool Large Loss (LGL) Data
Carrier Code	X	X	X	X	X	X
Policy Number	X	X	X	X	X	X
Policy Effective Date	X	X	X	X	X	X
Exposure State Code	X	X	X		X	X
Claim Number		X	X	X	X	X
Accident Date	X	X	X	X	X	X
Jurisdiction State Code		X		X	X	
Resident State Code				X		

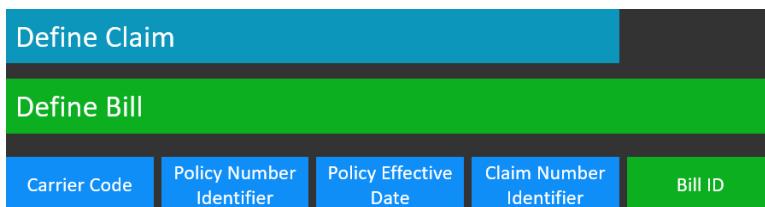

Data Now Program (DNP) Introduction to Medical Data Call

Correcting Key Fields

Key Fields—Medical Bill

When the data related to a bill line changes (for example, additional payments), the updated transaction needs to report the same values in these key fields as was reported on the original transaction.

The ability to uniquely identify a bill line and process updates correctly means NCCI cannot load inconsistent key fields.

Reasons why NCCI may return individual records:

- Blank Claim Numbers
- Invalid Policy Effective Dates
- Carrier Codes That Are Not Recognized

If a significant number of records in a single file have errors, we assume there was an error when creating the file and reject the file.

Data Now Program (DNP) Introduction to Medical Data Call

Additional fields help NCCI determine how to handle updates to a transaction. The Transaction Code indicates if the transactions are to be replaced or cancelled. The Transaction Date provides the order in which the updates should be processed.

Electronic Transmission User's Guide (ETUG)

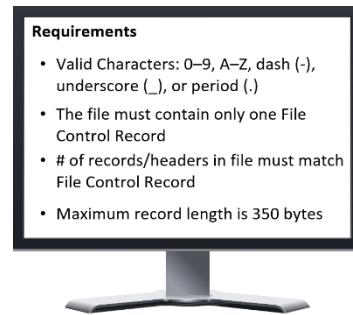

This manual provides the necessary requirements, forms, and instructions for preparing and submitting test and production files.

The screenshot shows the NCCI Manuals Library website. The left sidebar has a tree view of Underwriting Manuals, with 'Data Manuals' expanded to show 'Data Quality Guidebook', 'DCI Reporting Guidebook 2009 Edition', 'Electronic Transmission User's Guide' (which is highlighted in yellow), 'Experience Rating (ER) Split Data Reporting Guide', 'Financial Call Reporting Guidebook', 'Indemnity Data Call Reporting Guidebook', 'Medical Data Call Reporting Guidebook', 'Policy and POC Reporting Guidebook', 'Pool Data Reporting Guidebook', 'Statistical Plan Manual 2008 Edition', 'National', 'States', 'Alphabetical Index', and 'Unit Statistical Reporting Guidebook'. The main content area shows the 'Electronic Transmission User's Guide—2022' page, which includes a PDF download link and three issuance dates: 10/17/2025, 08/21/2024, and 12/01/2022. To the right of the main content is a sidebar with a purple border. The sidebar contains a list of topics: 'Medical Data Call submissions', 'Following the Medical Data Call workflow', 'Medical Data Call resources', 'Medical Data Call certification process', 'Pre-editing Medical Data Call files', and 'Medical Data Call production files'. A purple arrow points from the 'ETUG' page on the left to the 'Medical Data Call submissions' section in the sidebar on the right.

Submitting Medical Data Files

File Naming Conventions

- Production Bill Line—medical.30charactersmax.txt
- Certification Bill Line—medical.30charactersmax.tst
- Production KFC—medkey.30charactersmax.txt
- Certification KFC—medkey.30charactersmax.tst

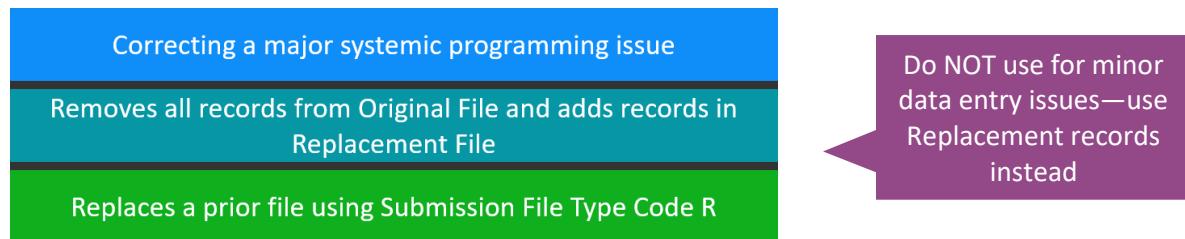

File Control Record

- Only one File Control Record is required for each file submitted to NCCI
- Place at the beginning or at the end of the Medical file
- The file provides:
 - Submission File Type Code (Original or Replacement)
 - Carrier Group
 - Reporting Quarter Code
 - Reporting Year
 - Record Total (**Note:** If this does not match the actual record count, NCCI will reject the file)

Replacement File Use

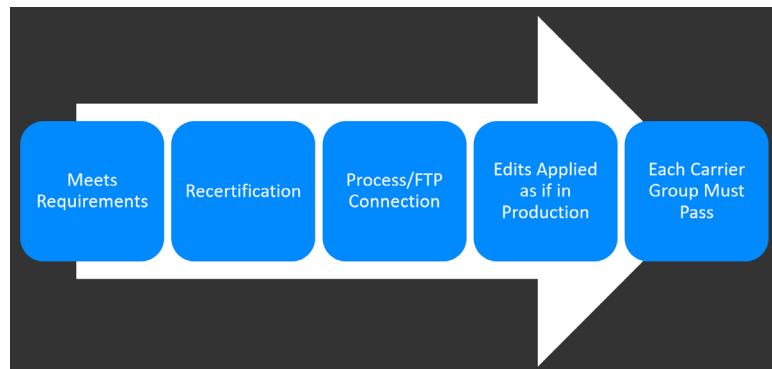

Used for correcting major systemic programming issues.

Replacement File Examples

- The data provider reported all Transaction Dates in the file as the date the records were submitted to NCCI, instead of the date the transactions occurred
- The data provider reported all ICD Diagnostic Codes missing the decimal point, and the spacing in the file is incorrect

Certification/Testing

Certification testing ensures that test data files meet minimum formatting and quality requirements prior to production reporting. System changes require recertification as indicated on the affiliation agreement.

With certification testing:

- Data will meet minimum formatting and quality requirements prior to production reporting
- Edits are applied to each test file as if it were received in production
- The submission process and connection to NCCI is tested
- Edits are applied to test data as if it were production data
- Each carrier group MUST pass certification before they are approved to submit production data

Data Now Program (DNP) Introduction to Medical Data Call

- .TST Extension
- Edits Applied as if Production Edit
- Use Real/Production Data

Certification Process

Three-step process:

Medical Data Provider (MDP) Requirements

Steps required before reporting Medical data to NCCI:

- Data Provider Profile Form: For carriers that will be utilizing a third party administrator (TPA), vendor, or other outside MDP
- Service Provider Agreement: Authorizes the TPA or vendor to act on the affiliate's behalf
- Service Provider Data Tool Access Addendum: Attached to the Service Provider Agreement, it provides access to the data reporting tools and identifies the level of access

Contact NCCI's Customer Service Center at 800-NCCI-123 to verify that appropriate authorization is on file.

Pre-Edit

- Medical.30characters.tst
- Medkey.30characters.tst

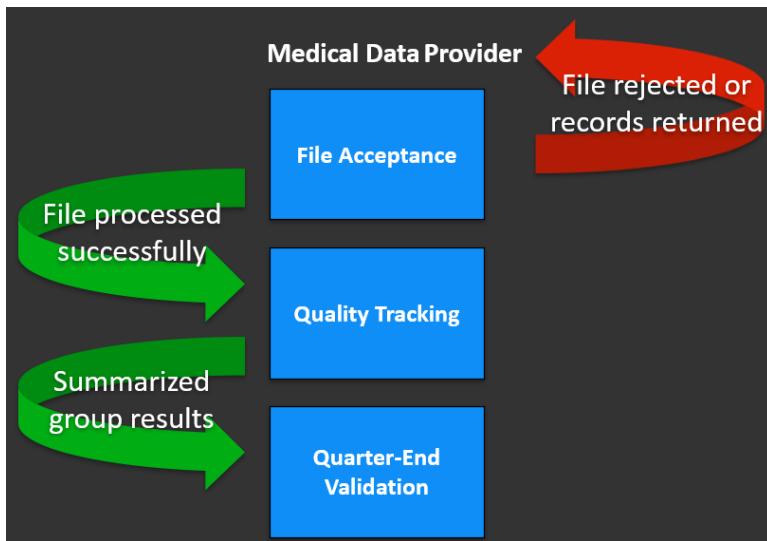

- Edited as if Production data
- Results in **MDC** tool
- Submission and Quality Tracking at file level

Key Field Verification

Provider Postal (Zip +4)

Latest Enhancements
7/16/24 Enhancement: A new Medical data field, Provider Postal (Zip +4) Code, has now been implemented within the Medical Data Collection tool. The new field will be displayed as a Priority element within the following screens:

- Quality Tracking
- Quarter End Validation (within the Quality Results tab)
- Incentive Program (within the Quality Results tab)

There are 3 edits associated with this element (0534-01, 0534-02, 0534-03) which are viewable, (if applicable) by expanding the Provider Postal (Zip +4) Code element record.

Refer to Part 5.A.24 of the *Medical Data Call Reporting Guidebook* for further details regarding the Provider Postal (Zip +4) Code field.

Three States of Editing

File Acceptance	Quality Tracking	Quarter-End Validation
<ul style="list-style-type: none"> ▪ Submission, field, relational edits ▪ Pass or reject and return file/records 	<ul style="list-style-type: none"> ▪ Field, logical, relational edits ▪ Count occurrences ▪ Results available for viewing in MDC tool 	<ul style="list-style-type: none"> ▪ Logical and relational edits, distributions ▪ Count occurrences are aggregated ▪ Results available for viewing in MDC tool

File Acceptance—File Rejected

Can NCCI process the file?

- File naming convention is valid
- Data provider is authorized to report Medical data
- Record length is correct and contains valid characters
- Contains a File Control Record with valid values
- Key fields are populated

File Acceptance—Records Rejected

Can NCCI process the records in the file?

- Carrier Code is valid
- Cancellation record must have an associated Original or Replacement record in the submission or on NCCI's database
- Replacement record must match a previously reported record in the submission or on NCCI's database

Section

Medical Data Collection submission application that enables you to view results of Medical Call data submissions reported to NCCI in one place that will enable you to monitor and review data and statistics information distributions.

Latest Enhancements

5.16/24 Enhancement: A new Medical data field, Provider Postal (Zip +4) Code, has now been implemented within the Medical Data Collection tool. This new field will be displayed as a Priority element within the following sections:

- Quality Tracking
- Quarter End Validation (within the Quality Results tab)
- Incentive Program (within the Quality Results tab)

There are 3 edits associated with this element (0534-01, 0534-02, 0534-03) which are viewable, (if applicable) by expanding the Provider Postal (Zip +4) Code element record.

Refer to Part 5.A.24 of the [Medical Data Call Reporting Guidebook](#) for further details regarding the Provider Postal (Zip +4) Code field.

Data as of 10/23/2024 Quarter/Year: 2 Qtr/2024 Transmission Type: Production

Edit Seq Nbr	Edit Description	Occurrences of Edit	Records Subject to Edit	% of Occurrences	Tolerance %
0505-02	Paid amount equals amount charged by provider.	36	5,650	0.6%	20%
0159-02	Policy effective date is after accident date.	5,042	5,652	89.2%	10%
0519-05	Replacement record contains the same transaction date as record to be replaced.	6	6	100.0%	10%
0519-06	Cancellation record contains the same transaction date as record to be deleted.	12	12	100.0%	10%
0519-07	Original record already exists.	512	5,902	8.7%	10%
0505-03	Paid amount is greater than amount charged by provider.	5,454	5,650	96.5%	5%
0506-03	Paid procedure code is missing and secondary procedure code is valid.	57	2,082	2.7%	5%

Are the formats and values valid?

- Formatting is correct by field class
- Date fields are formatted YYYYMMDD
- Data is reported and values are valid from jurisdiction-approved codes

Example: Alpha fields are only A-Z or blank. Numeric fields are only 0-9.

Data Now Program (DNP) Introduction to Medical Data Call

Relational Edits

- Dates are in logical order (Policy, Accident, Service, Transaction)
- Conditional fields are reported when a condition exists
- Paid fields align with charged fields
- Primary field is reported when its associated secondary field is reported
- Original, Replacement, and Cancellation transactions occur in a logical order
- Transactions are reported in chronological order by Transaction Date

NCCI compares quarterly aggregate results and provides the distribution bar graphs, percentages, and counts. We will review aggregate distributions and expected edits for reasonability.

Is the data complete?

- Submission checked for completeness and reasonability
- Transaction counts for elements that failed edits are evaluated against a tolerance threshold based on the element and the element category
- Aggregate validation distributions
