### Countrywide–Terrorism Risk Insurance Program Reauthorization Act of 2007–Informational Update

On January 16, 2008, NCCI released countrywide Circular CIF-2008-01 containing responses to FAQs regarding NCCI's item filings related to the Terrorism Risk Insurance Program Reauthorization Act of 2007 (TRIPRA).

As a follow-up to that release, this circular provides additional information regarding NCCI's evaluation of its current filings for domestic terrorism, earthquake, and catastrophic industrial accidents (DTEC) and foreign terrorism—recognizing that TRIPRA does not distinguish between domestic and foreign terrorism.

Currently, NCCI is:

- Remodeling both foreign and DTEC miscellaneous values that would be used to evaluate the efficiency of a refiling of combined foreign and domestic terrorism values
- Reviewing the impact that TRIPRA may have to the results of the remodeling
- Developing a strategy to incorporate a combined terrorism value and other catastrophe provisions in preparation for a future filing
- Anticipating that a refiling of combined miscellaneous values for terrorism and other catastrophe provisions would likely occur in the second quarter of 2008
