SCSOSSM Service (Servicing Carrier
Selection and Oversight System)

RMF
2025

Where Do I Find Results in CAP?

Servicing Carrier Selection and Oversight System (SCSOSSM Service)

Servicing Carrier Selection

Allows the selection process managed online through **ncci.com**. The distribution of NCCI's RFP responses to the RFP, scoring notification of awards will be electronically via **SCSOSSM Service**.

Carrier Audit Program

The Carrier Audit Program (CAP) allows assigned risk carriers to report: Self-Audit, SCOR, and on-site information to NCCI. All audit systems within **CAP** help ensure that the assigned carriers are in compliance with applicable performance standards, bid enhancements, and financial reporting guidelines for the handling of assigned risk business. Carriers and regulators may also view the results of these programs in **CAP** via **ncci.com**.

Assigned Carrier Quota Report

Allows carriers to view their actual quotas through **ncci.com** compared to expected quotas. The actual quotas are based on a rolling 12 months of reported policy premium (updated weekly) and 3 months of application premium (updated real-time).

Regulator Quota Report

Allows Regulators to view the Assigned Carriers actual quotas compared to expected quotas within their state through **ncci.com**. The actual quotas are based on a rolling 12 months of reported policy premium (updated weekly) and 3 months of application premium (updated real-time).
