Illinois Residual Market Share Compared to All Plan Jurisdictions Market Share Calendar Years 2023 - 2019

Plan Premium as a Percentage of Direct Written Premium

*Preliminary

Note: The Residual Market Share is based on residual market written premium as a percentage of total direct written premium on a calendar year basis, from financial data reported to NCCI.

Due to the nature of calendar year data, this chart provides a full year of data and is updated only once a year with the second quarter report.

This Residual Market Share is published in the **Residual Market Management Summary** within *Exhibit P* for NCCI Plan and Pool Administered states. "All Plan" jurisdictions in this chart represent the subtotal market shares for NCCI Plan-administered states within *Exhibit P*.

Residual Market Demographics

Collections/Indemnification

The following shows a comparison of gross written premium and uncollectible premium reported in Illinois for Policy Years 2020-2024, obtained through NP-4 and NP-5 reports including traumatic and black lung claims, evaluated through 4th Quarter 2024.

Policy Year	Gross Written Premium \$	Uncollectible Premium \$	Percentage
2020	83,952,790	13,158,335	15.7%
2021	82,996,674	11,087,783	13.4%
2022	80,099,120	12,769,746	15.9%
2023	77,098,841	--	--
2024	64,485,137	--	--

* The uncollectible premiums provided are reported by the servicing carriers on a quarterly basis. Uncollectible premium is generally reported up to 24 months after the policy expiration date due to audit, billing, and collection requirements. Therefore, the uncollectible premium data has not yet developed for the more recent policy years.

Glossary of Terms

Applications Bound—The applications that are actually assigned to a Servicing Carrier or Direct Assignment Carrier (if applicable).

Earned Premium or Premiums Earned—That portion of written premiums applicable to the expired portion of the time for which the insurance was in effect. When used as an accounting term, “premiums earned” describes the premiums written during a period, plus the unearned premiums at the beginning of the period, less the unearned premiums at the end of the period.

In Force (Policies/Premium)—All policies and associated estimated premium that are current as of a given date. This excludes policies that have been cancelled or expired prior to the given date.

Incurred But Not Reported (IBNR)—Pertaining to losses where the events that will result in a loss, and eventually a claim, have occurred, but have not yet been reported to the insurance company. The term may also include “bulk” reserves for estimated future development of case reserves.

Loss Ratio—The ratio of total incurred losses to total earned premiums in a given period, expressed as a percentage. The formula for loss ratio is $(\text{loss} + \text{loss adjustment expense}) / \text{earned premium}$.

Premium Bound—The total estimated annual premium on bound applications.

Prorated Estimated Annual Premium—premium determined by multiplying a policy’s total estimated annual premium to a factor based on the number of days the policy was in effect. For example, if a policy was in effect for 100 days, the factor would be $100/365$ or 0.274 . For a policy with a total estimated annual premium of \$1,000 the prorated estimated annual premium would be \$274. This calculation is applied to cancelled policies.

Underwriting Gain/ (Loss)—The financial statement presentation that reflects the excess of earned premium over incurred losses.

VCAP® Service—Voluntary Coverage Assistance Program is a supplemental program to NCCI’s Workers Compensation Insurance Plan. As part of NCCI’s strategic vision of maintaining and depopulating the residual market, NCCI’s **VCAP® Service** redirects coverage opportunities for employers to voluntary market insurers, which generally provide coverage at a lower cost. **VCAP® Service** provides an additional source for producers and employers to secure voluntary workers compensation coverage prior to entering the residual market for coverage.
